

# BIOPHOENIX SPHERE SET

The **BIOPHOENIX SPHERE SET** is used to harmonize various interference fields in living and working spaces.

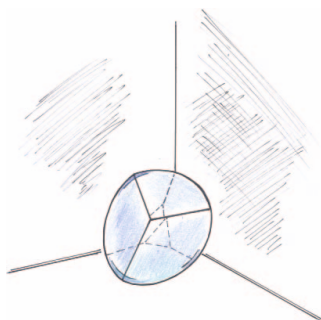

Geopathic interference zones (water veins, earth rays, etc.), with the exception of electrosmog, are harmonized. Additional products may be required for stronger interference zones (e.g. accumulations or similar).

#### Application:

Place the SPHERE 125 approximately in the center of the object.

**ATTENTION: Fire hazard in case of direct sunlight!** Place the Y-PRISM in the outermost corners of the living area (positioning according to the sketch). The maximum distance between the sphere and Y-prism is 12.5 m.

For high electromagnetic pollution or directional beam loads, we recommend the additional use of a **SANA LEA OMNI-GOLD** or **OCTARION/OCTARINO** and for all wireless devices the **FOSTAC OMNI CHIP** or the **ELECTRIC plate (Mini, A6 or A5)**. The negative effects of the internal power network can be harmonized with **ELECTRIC plates (A6, A5 or A4)**.

#### TECHNICAL DETAILS

Material: Glass

Content: 1 pce SPHERE Ø 125 mm

4 pcs Y-PRISM Ø 48 mm
