

The **BLANKET** creates a large field of energy (Tachyons), which has a highly energizing and balancing effect. It harmonizes harmful radiation and can, for example, be used for the hotel bed, on treatment beds, for the car seat etc..

It also has a very beneficial effect on diseased or injured animals and can be used to support healing during treatment.

Surrounded by a protective cover it can be placed on the bed of the animal.

The efficacy does not diminish even after repeated washing.
