

# FOSTACARE HEPA

**FOSTACARE HEPA** promotes the formation of new, healthy liver cells and is a unique new development based on several special plant extracts. This strongly supports detoxification processes in the body.

As only natural herbal ingredients are used, this product is also suitable for vegans without any restrictions.

Energized with the FOSTAC® Technology.

## Recommended intake:

1 capsule per day with a little liquid at mealtimes.

Preferably in the evening, as regeneration processes in the liver mainly take place at night.

Ingredients: Tea special extract | artichoke special extract | milk thistle special extract | yarrow special extract | vitamin C | Aerosil

## TECHNICAL DETAILS

Content: see description

Amount: 30 capsules
