

# FOSTACARE IMMUNO

An adequate supply of nutrients plays an important role in our health. For our immune system to function properly, it not only needs the right nutrients, but also sufficient quantities.

**FOSTACARE IMMUNO** contains valuable plant extracts, vitamins, trace elements and important micronutrients that the body needs every day to support the normal functioning of the immune system. A good supply of these nutrients supports the body in the event of increased requirements, an unbalanced diet or a decline in vitamin utilization in old age.

Energized with the FOSTAC® Technology.

## Recommended intake:

2 capsules per day with a little liquid at mealtimes.
