

FRIGO

The **FRIGO** energizes food and beverages that are stored in the refrigerator, it changes the vibrational frequency of the food to a biologically positive spin enhancing the vitality, increasing the preservation and freshness.

The FRIGO should be placed directly in the vegetable drawer (or on the lowest level) with the notched spiral pointing upwards. The power of its tachyon field is suitable for any size of domestic or industrial fridge or freezer. The FRIGO can generally be placed where food is stored.

TECHNICAL DETAILS

Material: Glass
