

LIGHT TEMPLE

The **LIGHT TEMPLE** harmonizes geopathic influences (earth rays, Water veins etc.), as well as low electro-magnetic influences.

For very strong influences (e.g. accumulations etc.), additional products may be required.

For high electromagnetic pollution or directional beam loads, we recommend the additional use of a **SANA LEA OMNIGOLD** or **OCTARION/OCTARINO** and for all wireless devices the **FOSTAC OMNI CHIP** or the **ELECTRIC plate (Mini, A6 or A5)**. The negative effects of the internal power network can be harmonized with **ELECTRIC plates (A6, A5 or A4)**.

The personal sensitivity of the user is decisive when selecting the product. Our consultants are happy to assist you.

The **LIGHT TEMPLE** has the outline of a pentagram. Its height and base area reflect the «Golden section» (ideal proportions as the epitome of harmony), leading to an ideal emanation of energy. Its five columns consist of octagonal glass bodies, supporting the harmonious build-up of its energy. On top of the temple is a faceted sphere which radiates the built-up energy into the room.

By means of an initiation meditation, Light Beings can be called who support people in their efforts to reach the light.

TECHNICAL DETAILS

Material: Glass with screw elements
Size: Ø approx. 27 cm
Height approx. 27 cm
